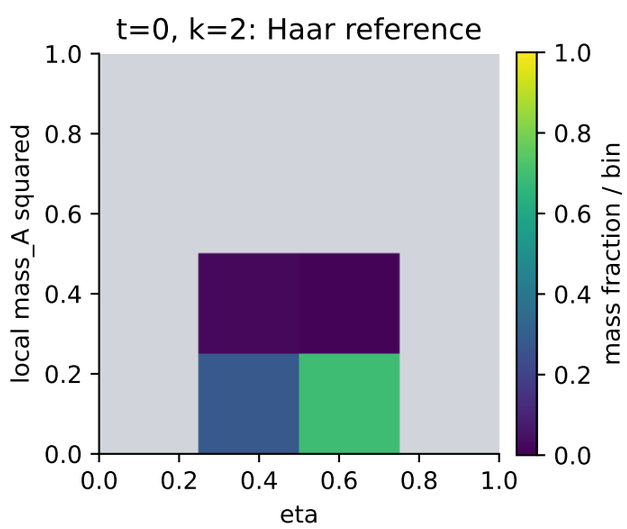
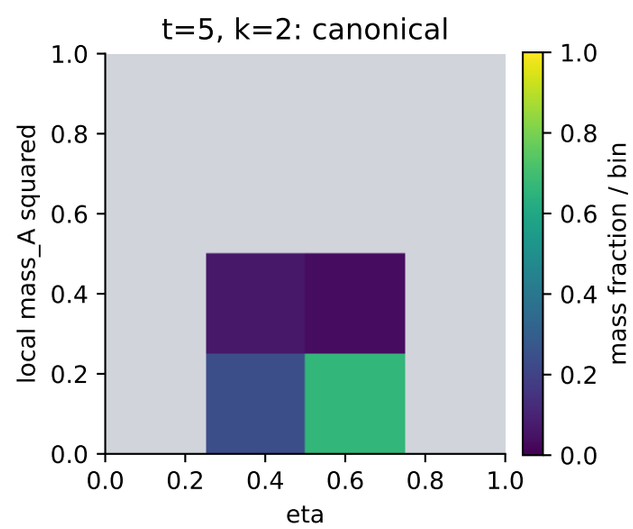
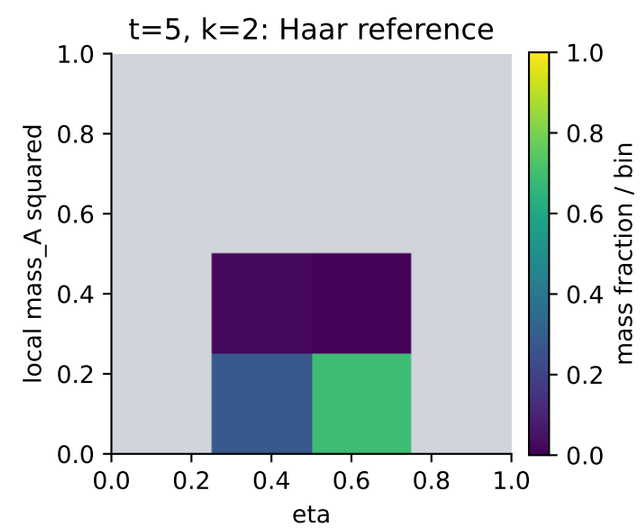
t=0, k=2: canonical
local mass_A squared
eta
mass fraction / bin



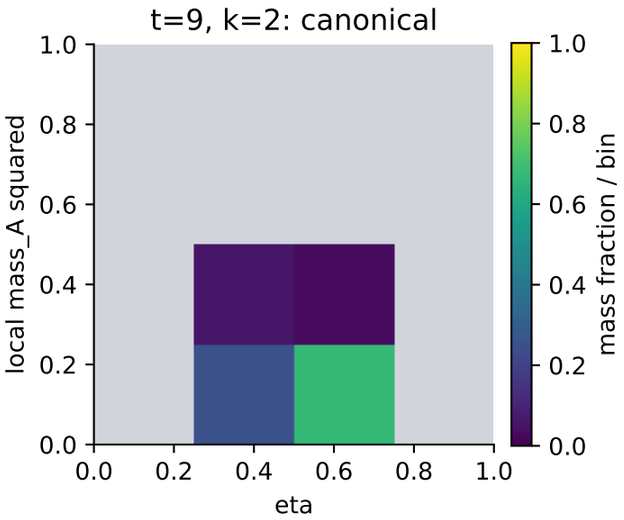
t=0, k=2: Haar reference
local mass_A squared
eta
mass fraction / bin



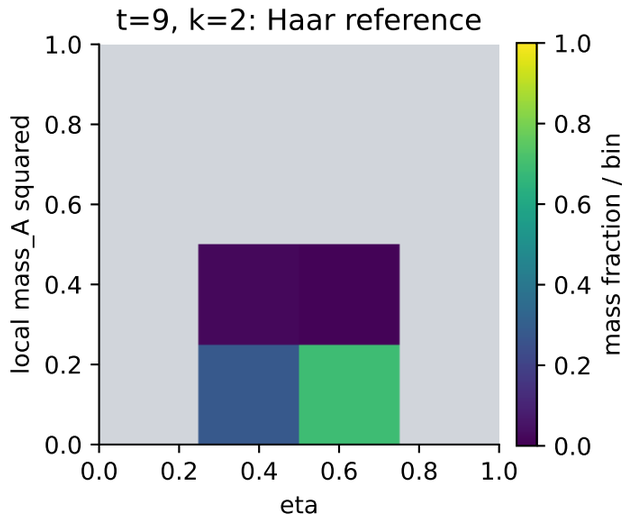
t=5, k=2: canonical
local mass_A squared
eta
mass fraction / bin



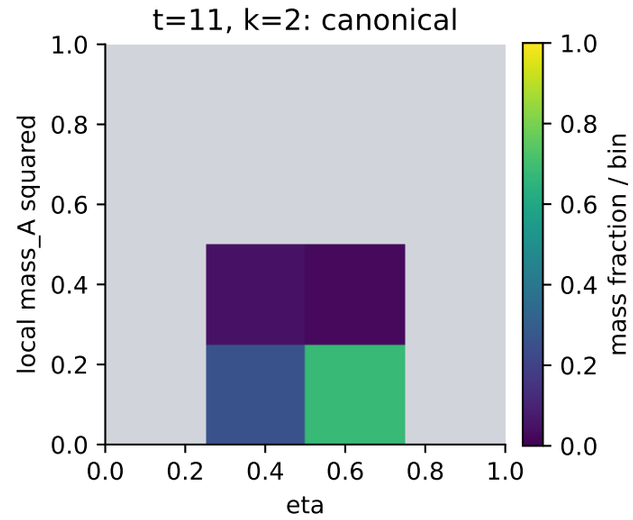
t=5, k=2: Haar reference
local mass_A squared
eta
mass fraction / bin



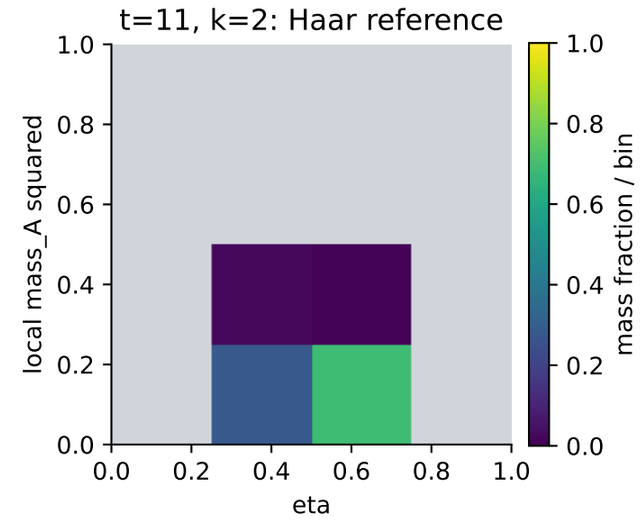
t=9, k=2: canonical
local mass_A squared
eta
mass fraction / bin



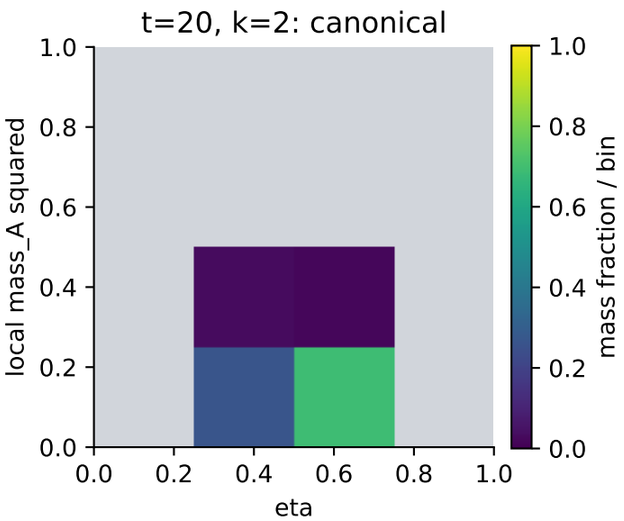
t=9, k=2: Haar reference
local mass_A squared
eta
mass fraction / bin



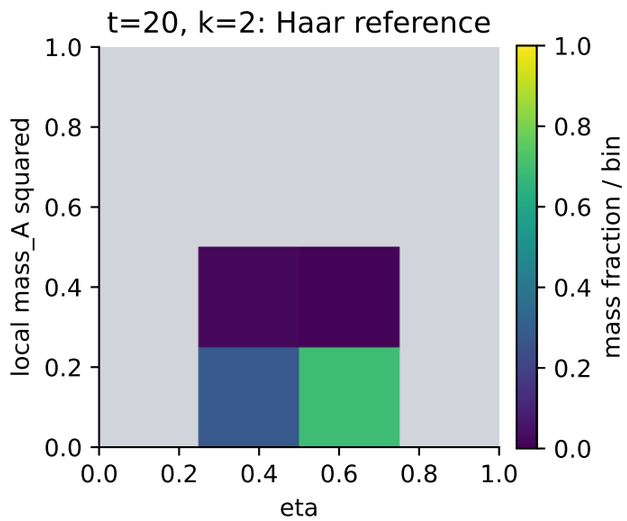
t=11, k=2: canonical
local mass_A squared
eta
mass fraction / bin



t=11, k=2: Haar reference
local mass_A squared
eta
mass fraction / bin



t=20, k=2: canonical
local mass_A squared
eta
mass fraction / bin



t=20, k=2: Haar reference
local mass_A squared
eta
mass fraction / bin
